

- 1 Q. Loads in Labrador West are relevant to the generation capacity of the Labrador  
2 Interconnected system, as well as to the amount that all Labrador Interconnected  
3 customers (both East and West) may be expected to bear for network upgrades.  
4 Please disclose the amount of load from data centre contracts in Labrador West  
5 that:
- 6 a. are in service
  - 7 b. Hydro has committed to serving but are not yet in service
  - 8 c. has been requested but Hydro has not yet committed to serving
  - 9 d. has been the object of inquiries without a formal request for service

10

11

- 12 A. The capital project under consideration pertains to the transmission reliability and  
13 capacity in Labrador East; the load in Labrador West is not a relevant issue for this  
14 proceeding.
