

1 Q. **Re: Labrador Expansion Study, p. 14 (pdf)**

2 When is IOC's synchronous condenser (SC3) expected to be commissioned? Is its  
3 commissioning conditional on other events? Please explain.

4

5

6 A. The capital project under consideration pertains to the transmission reliability and  
7 capacity in Labrador East; customer equipment in Labrador West is not a relevant  
8 issue for this proceeding.

9

10 Questions relating to the "Labrador Interconnection System Transmission Expansion  
11 Study" and the "Network Additions Policy," filed by Newfoundland and Labrador  
12 Hydro on October 31, 2018 and December 14, 2018 respectively, are not relevant  
13 for this proceeding. The Board of Commissioners of Public Utilities has indicated by  
14 letter dated November 20, 2018 and email dated December 20, 2018, both of which  
15 were received by all intervenors, that a separate process will be established in  
16 relation to those two filings.
