

1 Q. **Muskrat Falls to Happy Valley Interconnection, Volume II, Tab 13, Page 7**

2 *“At the North Side Diesel Plant, there is approximately 5 MW of diesel generation,*
3 *but due to the deteriorating condition of the plant, it is not reliable.”*

4

5 What is Hydro’s plan for the retirement or replacement of the North Side Diesel
6 Plant?

7

8

9 A. At the present time, Hydro’s plan is to continue to operate and maintain the North
10 Side Diesel Plant until it reaches the end of its service life, at which time it will be
11 retired.
