IN THE MATTER OF the *Electrical Power Control Act, 1994, SNL 1994, Chapter E-5.1* (the *EPCA*) and the *Public Utilities Act, RSNL 1990, Chapter P-47* (the *Act*);

IN THE MATTER OF an application by Newfoundland and Labrador Hydro (“Hydro”) for approval of revisions to its Cost of Service Methodology pursuant to Section 3 of the *EPCA* (the Cost of Service Methodology Application) for use in the determination of test year class revenue requirements reflecting the inclusion of the Muskrat Falls Project costs upon full commissioning.

Newfoundland and Labrador Hydro

Requests for Information

NLH-CA-001

August 14, 2019

1 **NLH-CA-001** Does Mr. Bowman agree that rate mitigation funds made available by the Provincial
2 Government of Newfoundland and Labrador should be functionalized, classified and
3 allocated among all customer classes as a separate expense credit item within the Cost
4 of Service Study, and shared among customer classes on a consistent basis with the
5 overall cost allocation approach to be approved by the Board of Commissioners of
6 Public Utilities for the Muskrat Falls Project? If not, what method does Mr. Bowman
7 propose for the treatment of available rate mitigation funds in the Cost of Service
8 Methodology?

DATED at St. John's, in the Province of Newfoundland and Labrador this 14 day of August, 2019.

Shirley A. Walsh
