
1 Q. **Reference: 2018 Cost of Service Methodology Review Report dated November 15, 2018**

2

3 Hydro states on page 18 (lines 7 to10) that it *“believes CBPP should have the opportunity to*
4 *manage its generation as efficiently as possible and, to that end, proposes to work with*
5 *CBPP in the rate design review planned for 2019 to develop a proposal to achieve this*
6 *objective”*? What is the status of this proposal?

7

8

9 A. Newfoundland and Labrador Hydro met with representatives from Corner Brook Pulp and
10 Paper Ltd. with respect to future rate design concepts. Work on this proposal is ongoing.
