

- 1 **Q. With reference to lines 2 through 8 on page 35 of Mr. Brockman's Pre-Filed**
2 **Evidence (August 5, 2019) please confirm whether Mr. Brockman considers it**
3 **appropriate to continue the existing CBPP generation credit until a new agreement**
4 **is developed or if he supports Hydro's proposal to terminate the existing agreement**
5 **prior to the development of a new agreement.**
6
- 7 A. It is Mr. Brockman's understanding of Hydro's evidence that Hydro intends to work
8 with CBPP to develop a proposal for an arrangement to replace the CBPP generation
9 credit as part of a planned rate design review in 2019.¹ This would seem to allow for
10 the development of a replacement arrangement prior to the proposed termination of
11 the existing agreement following the commissioning of the Muskrat Falls Project. In
12 Mr. Brockman's opinion, this appears reasonable.
