

- 1 Q. **Reference page 4, lines 14-15, *Labrador Interconnected System Network Additions Policy***  
2 ***Summary Report***
- 3 a. Why did Hydro select a threshold of 200kW?  
4 b. Provide any data analysis and workpapers for the selection of the 200 kW  
5  
6
- 7 A. a. Please refer to Newfoundland and Labrador Hydro's ("Hydro") response to NP-NLH-035 of  
8 this proceeding.  
9
- 10 b. As noted in Hydro's response to NP-NLH-035 of this proceeding in particular footnote 1,  
11 "Approximately 95 of the 1,400 existing General Service customers on the Labrador  
12 Interconnected System have demand requirements in excess of 200 kW (i.e., 7%)." PUB-NLH-  
13 077, Attachment 1 provides a data listing of the peak demands for the larger General Service  
14 Customers on the Labrador Interconnected System.
