

1 Q. **References: Tab 8; Volume II: Distribution System Upgrades (2019-2020)**

2 In addition to areas served by isolated diesel systems, does Hydro plan to replace
3 existing street lights with LED fixtures in communities outside of these areas?

4 Please include any analyses completed with respect to the potential benefits and
5 costs to Hydro and its customers of doing so.

6

7

8 A. Hydro is currently investigating the feasibility of replacing existing street lights with
9 LED fixtures on its Interconnected Systems.

10

11 This work is still in its early stages and therefore Hydro has no formal analysis it can
12 share with the Board at this time. Hydro anticipates this investigation will be
13 completed in time for its 2020 Capital Budget Application submission.
