Ms. Cheryl Blundon
Director of Corporate Services & Board Secretary
Board of Commissioners of Public Utilities
Prince Charles Building
120 Torbay Road, P.O. Box 21040
St. John's, NL A1A 5B2

Dear Ms. Blundon:

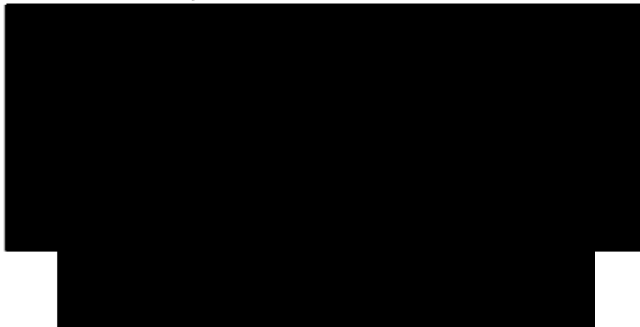

Re: Newfoundland and Labrador Hydro – Application for Approval to Construct Phase 1 of Hydro's Long-Term Supply Plan for Southern Labrador.

Thank you for the opportunity to submit our concerns regarding the above application.

We are very disappointed that NL Hydro is proposing to provide southern Labrador with future power via diesel generation. At this time, we are asking to be connected to the interconnected system near Happy Valley – Goose Bay. We understand that this venture is more costly, but we understand that the Federal Government may have funds available to help do away with diesel generated electricity.

Thank you for your time.

Sincerely yours,

fax to: (709) 726-9604
