

1 Q. **Reference: Midgard Consulting *Southern Labrador Communities – Integrated Resource Plan,***
2 **March 28, 2023, Section 8 – Sensitivity Analysis, Pages 87-89.**

3 Please provide a sensitivity analysis that includes an estimate of the proceeds from Hydro’s
4 insurance claim relating to the 2019 fire at the Charlottetown diesel generating station.

5

6

7 A. *This response has been provided by Midgard Consulting Inc. (“Midgard”).*

8 The sensitivity analysis would be unchanged as a result of the proceeds from Newfoundland and
9 Labrador Hydro’s (“Hydro”) insurance claim, as proceeds from this claim would be applied to
10 any generation assets built by Hydro, and would be applied to all scenarios equally. The
11 proceeds of the insurance claim, as discussed in Hydro’s response to PUB-NLH-061 of this
12 proceeding, are also within the range of capital costs considered in Midgard’s sensitivity
13 analysis.¹
