Re: Newfoundland and Labrador Hydro – 2021 Capital Budget Application

Dear Ms. Blundon:

We write on behalf of the Labrador Interconnected Group to request an extension of time for the filing of requests for information; to provide notice of intervenor evidence; and to request a technical conference in the above-noted application. We would respectfully request an extension to Tuesday, September 29, 2020, as our expert has indicated that this time will be required to prepare RFIs for submission.

Please let us know if you require any further information, and thank you to the Board for its consideration of this request.

Respectfully,
Olthuis, Kleer, Townshend LLP
