

1 Q. **Reference: Volume I, Section C: Projects Over \$500,000, Provide Service Extensions (2021),**  
2 **page C-75, lines 9 to 10.**

3 This is a single-year project to provide an annual allotment for new service  
4 connections and street lights, based on past expenditures and forecasted  
5 activity within the regions.

6 Please confirm that new street lights installed will be LED technology and explain how Hydro  
7 plans to track capital expenditures associated with the conversion to LED street lights.

8

9

10 A. All new streetlight installations will be of LED<sup>1</sup> technology. Capital expenditure tracking will be  
11 achieved by use of the work order system which is searchable. Every streetlight changed or  
12 installed will be completed on an individual work order within the project.
