

1 Q. **Reference: Volume I, Section D: Projects Over \$200,000 but less than \$500,000, Level 2**
2 **Chargers for Electric Vehicles, page D-59, lines 20 to 23.**

3 To enable the use of fleet electric vehicles, charging infrastructure at Hydro-
4 owned sites is required in advance of acquiring further electric vehicles, which is
5 expected to commence in late 2021 and continue throughout the five year
6 capital plan period.

7 How many electric vehicles does Hydro plan to purchase in late 2021? Are these electric
8 vehicles included in the estimates provided in the 2021 Capital Budget Application?

9

10

11 A. Newfoundland and Labrador Hydro (“Hydro”) plans to purchase two electric vehicles in 2021.
12 The cost of purchasing these vehicles is included in the project estimate for the Replace Light-
13 and Heavy-Duty Vehicles (2021–2022) project in Hydro’s 2021 Capital Budget Application.
