

1 **Q. EV Charging Network – Exhibit 2**

2
3 **On page 7, footnote 26, Newfoundland Power notes that the incremental cost in 2021**
4 **to install Level 2 chargers is approximately \$50,000 (\$5,000 per unit), and the**
5 **installation of these units at the sites is contingent upon the approval of federal**
6 **funding. Is this \$50,000 part of the \$550,000 that Newfoundland Power has already**
7 **applied for or is it from a separate funding application?**

8
9 A. Yes, the funding for Level 2 chargers is part of Newfoundland Power’s existing \$550,000
10 funding proposal.
