

1 **Q. Exhibit 2, Appendix A – NPV Analysis**

2  
3 **Has Newfoundland Power applied for any additional funding for program costs or**  
4 **infrastructure that have not been factored in to the NPV analysis? If so, how much**  
5 **funding has been requested?**  
6

7 A. No, Newfoundland Power has no other funding applications currently ongoing related to  
8 electric vehicle (“EV”) programs or charging infrastructure.<sup>1</sup>  
9

10 The Company actively monitors all available funding programs. For additional  
11 information on available programs that are being monitored, see response to Request for  
12 Information PUB-NP-013.

---

<sup>1</sup> Newfoundland Power has applied for \$550,000 in federal funding associated with EV charging infrastructure costs in 2021. Approval of this funding is pending. This funding was therefore not included in the NPV analysis provided with this application. See the *2021 Electrification, Conservation and Demand Management Application*, Volume 1, Exhibit 2, Appendix A.
