

1 Q. **Reference: Schedule 1-Evidence**

2 At Schedule 1, page 8 of 13, Hydro states:

3 "Hydro is also proposing that the non-firm energy rate differentiate between peak and off-peak  
4 periods based on the forecast monthly average market values for these time periods. The winter  
5 on-peak period is proposed to be 7 am to 10 pm Monday to Friday for the months of December  
6 to March and the non-winter-peak period is 8 am to 10 pm for the period April to November."

7 For the non-winter period, would Hydro propose the on-peak period to be Monday to Friday,  
8 Monday to Sunday or some other period?

9

10

11 A. To clarify, Newfoundland and Labrador Hydro is proposing the winter on-peak period to be  
12 7 a.m. to 10 p.m., Monday to Friday for the months of December to March. The non-winter on-  
13 peak period is proposed to be 8 a.m. to 10 p.m., Monday to Friday for the months of April to  
14 November.
