

1 Q. **Reference: Program 3 – Terminal Station Renewal Program (2023-2024) (page 10, line 9)**

2 Hydro stated it does not currently record transformer outage statistics however, in response to  
3 PUB-NLH-016 Hydro corrected this statement and advised that it does record power outage  
4 statistics and provided details on outages since 2017.

5 In response to CA-NLH-046, page 2, lines 13-14, Hydro states “Hydro also notes that power  
6 transformer outage statistics are not recorded by Hydro to support the Historical Reliability  
7 requirement.”

8 Please reconcile these two statements.

10

11 A. Newfoundland and Labrador Hydro (“Hydro”) acknowledges that the statement referenced in its  
12 response to CA-NLH-046 of this proceeding is not accurate and confirms that it does record  
13 power outage statistics. Hydro will provide relevant historical reliability data for future power  
14 transformer upgrade proposals.
