Subject: RE: NLH - Approval of Various Supplemental Capital Projects at Holyrood Thermal Generation Station - Request for Change or Modification to Board Order No. P.U. 24(2022) - To Parties - Review Schedule

Good day,

Newfoundland Power has no comment with respect to Newfoundland and Labrador Hydro's request to modify Board Order No. P.U. 24 (2022) given the Company's understanding that refurbishment of Tank 1 (Holyrood) is a less costly option than that which was approved in the original Board order.

Regards,

Dominic
