7 A. At present, Newfoundland and Labrador Hydro (“Hydro”) plans to file a supplementary  
8 application for advancement of the purchase of a spare generator step-up (“GSU”) transformer  
9 following the failure of Bay d’Espoir Transformer T6 in July 2023. The purchase of a spare GSU  
10 transformer was included in Hydro’s original 2024 Capital Budget Application, but was  
11 subsequently withdrawn in Revision 1<sup>1</sup> to enable a supplemental application to expedite the  
12 purchase. Hydro plans to file this supplemental in the coming weeks.

13 Hydro has not identified any additional supplemental applications to be filed in 2023.
