

1 **Re: 2009 Capital Plan, p. 16 - Carpentry Shop - Holyrood**

2 Q. a) How long has the carpentry shop at the Holyrood Generating Station been
3 situated in a location adjacent to an operating unit?

4

5 b) Have there been any reported accidents or injuries which NLH has
6 determined to be occasioned by the location of the carpentry shop adjacent
7 to an operating unit?

8

9 c) When did NLH first determine that the present location of the carpentry
10 shop constituted a potential danger to staff?

11

12

13 A. This project has been included in the "Five Year Plan for Holyrood" section of
14 the 2009 Capital Plan tab of the 2009 Capital Budget Application to illustrate
15 the nature of work which Hydro anticipates will be required in the near future.
16 The project will be formally submitted for approval in a future Capital Budget
17 Application and will be described in detail and fully justified at that time.
18 Hydro anticipates that this project will be required to eliminate safety
19 concerns and to improve the productivity of personnel.
