

1 **Re: 2009 Capital Projects \$200,000 - \$500,000 p. C-124 - Rocky Harbour Line 2**

2 Q. Using September 2008 fuel prices, please indicate the cost of 120 barrels of
3 fuel as consumed at the Holyrood Terminal Generating Station.

4

5

6 A. The forecasted September 2008 fuel price is \$89.89 per barrel. This price is
7 based on inventories at the end of August 2008 and does not reflect any
8 possible purchases in September 2008.

9

10 The calculation is: 120 barrels x \$89.89 per barrel = \$10,786.80.
