

1 **Re: 2009 Capital Plan, p. 16 - Fan Weather Hoods**

2 Q. a) How long have the existing fans operated without weather hoods?

3

4 b) Have there been any reported illnesses or injuries which NLH has
5 determined to be occasioned by the operation of the fans without weather
6 hoods?

7

8 c) When did NLH first determine that the operation of the fans without
9 weather hoods constituted a potential danger to staff?

10

11 d) Have any reports been produced which address the health effects of the
12 operation of the fans without weather hoods?

13

14 e) If the answer to (d) is in the affirmative, please provide a copy of same.

15

16

17 A. This project has been included in the "Five Year Plan for Holyrood" section of
18 the 2009 Capital Plan tab of the 2009 Capital Budget Application to illustrate
19 the nature of work which Hydro anticipates will be required in the near future.
20 The project will be formally submitted for approval in a future Capital Budget
21 Application and will be described in detail and fully justified at that time.
22 Hydro has determined that this project is required to ensure the effective
23 operation of ventilation equipment to maintain acceptable air quality within
24 the facility.
