

1 **Re: 2009 Capital Projects: \$500,000 and Over p. B-6 - 25 kV Terminal Stations -**
2 **Labrador City**

3 Q. a) Has NLH estimated the cost of dismantling the older terminal stations in
4 Labrador City, and if so, what is the estimate?

5

6 b) Why is the estimate of dismantling costs not included within the overall
7 cost estimate for the construction of the new 25KV stations for Labrador
8 City?

9

10

11 A. a) No, the cost of dismantling the old terminal stations in Labrador City has
12 not yet been estimated.

13

14 b) Dismantling costs associated with the removal of the old terminal stations
15 was not included in the cost estimate because it is expected to be an
16 operating expense.
