

1 **Re: Hydro Place Energy Efficiency Improvements**

2 Q. What was the cost of the Energy Audit and has it been included in the  
3 calculation of savings to be expected?

4

5

6 A. The Energy Audit cost \$14,000 to complete. The cost of the audit was not  
7 included in the cost benefit analysis, however, as its cost is relatively minor  
8 compared with the total project cost, its inclusion would not affect the  
9 outcome of the analysis.
