

- 1 Q. As Hydro's stated concern is with "significant and unreasonable rate volatility",
2 explain as to why this concern cannot be addressed by setting as the final rates for
3 the Industrial Customers rates which are different from, and lower than, the interim
4 rates, so as to take into account the credit balance in favour of the Industrial
5 Customers in the Current Rate Stabilization Plan
6
7
- 8 A. Please see the response to IC-NLH-1.
