

1 Q. Provide the customer rate impact for each industrial customer of implementing
2 final industrial customer rates based on the RSP factor derived in NP-NLH-15
3 combined with the existing industrial customer base rates that resulted from the
4 Order No. P.U. 8 (2007).

5

6

7 A. All Industrial Customers, with the exception of Teck Resources Limited, will
8 experience a rate increase of 74 percent if the final industrial rate based on the RSP
9 factor derived in NP-NLH-15 is implemented. Teck Resources Limited would
10 experience a 153 percent increase.
