Dear Sirs:

Re: Nalcor Energy Application -- Filing of Evidence and Supporting Documentation

In reviewing the file record we have noticed that some filings reference case law and other supporting material that has not been provided along with the submissions. The Board requires that any documents or other referenced information be filed with the submissions so that it can be placed on the record

We understand that reference material may not be readily available at the time of the submission deadlines. Therefore it is the parties' responsibility to advise the Board where supporting documents have not been provided and to advise when such documentation will be available. The Board will work with all parties to ensure that all relevant information has been placed on the record.

Should you have any questions or require further clarification please do not hesitate to contact me directly.

Sincerely,

A handwritten signature in cursive script, appearing to read 'C. Blundon'.

Cheryl Blundon
Board Secretary
