**PUBLIC UTILITIES BOARD
REQUESTS FOR INFORMATION
TO
NALCOR ENERGY("NE")
PUB-NE-49 to PUB-NE-50**

Issued: February 16, 2010

1 **PUB-NE-49** The proposed Water Management Agreement sets out mechanisms for
2 coordinating the production of power at the Upper Churchill and Lower Churchill
3 hydroelectric generating stations. Please provide simulated power production
4 schedules illustrating how those mechanisms will function for two sample months
5 selected to illustrate seasonal variations. The simulations should address operation
6 of the hydroelectric generating stations with and without the implementation of a
7 Water Management Agreement. Please identify any assumptions made when
8 preparing the simulations and provide adequate explanation of tables and charts.
9

10 **PUB-NE-50** Please list the permits and approvals that must be obtained for the development of
11 the Lower Churchill hydroelectric generating stations at Gull Island and Muskrat
12 Falls and for related facilities with a description of the subject matter to be
13 addressed by each permit or approval and identification of the agency granting or
14 issuing the permit or approval.

DATED at St. John's, Newfoundland this 16th day of February 2010.
