

1    Q.    **Replace Light Duty Mobile Equipment - 2010; Vol II, Tab 21**

2            With respect to the ATV's and snowmobiles to be replaced in 2010, what condition  
3            is each in?

4

5

6    A.    Most units are in poor condition as a result of being operated on less than ideal  
7            terrain and high usage. The majority of maintenance issues are frame cracks and  
8            suspension wear. Some equipment in high salt areas has severe rusting.
