

1 Q. **Re: PC Replacement Program, Vol 1.**

2 At page C-153 under the heading 'Status Quo' it states that new applications may
3 not run on the old hardware platform. Can Hydro determine whether the desktop
4 computers recommended for replacement are able to effectively run the software
5 upgrades and operating system proposed under the new Microsoft Enterprise
6 Agreement?

7

8

9 A. The desktop computers recommended for replacement are not able to effectively
10 run the software upgrades and operating systems as they do not meet the
11 minimum requirements for software under the new Microsoft Enterprise
12 Agreement.
