

1 Q. **2010 Capital Plan, p. 11**

2 In the first paragraph NLH has stated that it "...has initiated a review of the
3 condition of the older plants to assist in planning the replacement or modification
4 in a logical sequence. This review will be completed late in 2009...." Please provide
5 an update on the status of the plan, the expected completion date, and the date on
6 which it will be available to the Board.

7

8

9 A. The review of the condition of the older diesel plants is in progress and a draft
10 report is expected early in October. A final report will be available for submission to
11 the Board by year end.
