

1 **Q. Information Systems - Vehicle Mobile Computing Infrastructure - p. 91 of 96 -**
2 **What is the breakdown of the \$272,000 cost to install 35 “ruggedized” laptop**
3 **computers on a per unit basis? Please, in responding, refer to the estimated**
4 **material cost, labour cost and other costs associated with installing each unit.**

5
6 A. The \$272,000 related to the Vehicle Mobile Computing Infrastructure project in 2010
7 includes the procurement and installation of 35 ruggedized laptop computers as well as
8 the expansion of network and security infrastructure required for these additional laptops.
9

10 Table 1 shows a breakdown of the estimated per unit cost of the ruggedized laptop
11 computers.
12
13

Table 1
Vehicle Mobile Computer Infrastructure
Ruggedized Laptop Computers
Estimated Per Unit Cost

	2010
Materials	\$4,250
Other	200
Total Cost per Unit	\$4,450

14
15
16 Material costs estimated on a per unit basis for this project are related to purchase of
17 ruggedized laptops and ergonomic mounting hardware. Other costs estimated on a per
18 unit basis for this project are related to fees for external labour as well as travel and
19 miscellaneous costs for installation.
20

21 Please refer to the response to Request for Information CA-NP-31 for further information
22 regarding the breakdown of the total estimated expenditures associated with this project
23 for 2010.
