

1 **Q. What will be the cost of installing these ruggedized laptops and accompanying**
2 **hardware into a new vehicle once the existing vehicle has to be replaced?**

3
4 **A.** The typical cost of installing these ruggedized laptops and accompanying hardware into a
5 new vehicle once the existing vehicle has to be replaced is estimated at \$200. The cost of
6 installing any particular laptop will depend on the make and model of the replacement
7 vehicle, its similarity to the existing vehicle, and the requirement for hardware changes
8 during installation.
