2 **rates set as a result of this Application will be in effect beyond 2010", when does the**
3 **Company expect to file its next General Rate Application?**
4

5 A. Please refer to the response to Request for Information CA-NP-43 which provides
6 Newfoundland Power’s 5-year financial forecast (the “financial forecast”). The timing of
7 the Company’s next general rate application is currently uncertain.
8

9 Newfoundland Power does not currently *expect* that the rates set as a result of this
10 Application will be in effect beyond 2010. Among the factors that influence this view are
11 economic conditions and accounting standards developments which may impact the
12 financial forecast.
13

14 Newfoundland Power accepts that it is *possible* that the customer rates set as a result of
15 this Application will be in effect beyond 2010.
