11

## 1Q.Please provide a table showing the percentage rate increases relative to both2January 1, 2009 and July 1, 2009 rates for each customer class for different ranges3of consumption within each class. Also provide an indication of the percentage of4customers that fall within each consumption range.5

- A. Attachment A provides tables showing the percentage rate increases from the Adjusted
   Proposed Rates relative to January 1, 2009 rates.<sup>1</sup> The impact shown is for each
   customer class broken down by different ranges of consumption within each class,
   together with an indication of the percentage of customers that fall within each
   consumption range.
- Attachment B provides tables showing the percentage rate increases from the Adjusted Proposed Rates relative to July 1, 2009 rates.<sup>1</sup> The impact shown is for each customer class broken down by different ranges of consumption within each class, together with an indication of the percentage of customers that fall within each consumption range.

<sup>&</sup>lt;sup>1</sup> The impact analysis is based on the proposed rates adjusted for the RSA and MTA for July 1, 2009. The Adjusted Proposed Rates are shown in Attachment A to the response to Requested For Information CA-NP-71.
