

- 1 **Q. With regard to the response to CA-NP-153, please provide Table 1 relating to**  
 2 **actuals on a weather adjusted basis.**  
 3  
 4 A. Table 1 provides weather adjusted energy (MWh) demand for each month from June  
 5 2006 through June 2009.

Table 2 provides annual weather adjusted peak load (kW) demand for 2006 to 2008. Newfoundland and Labrador Hydro only calculates weather adjusted peak demand at time of Newfoundland Power's annual peak, therefore, weather adjusted peak demand is not available by month.
