

*Requests for Information*

---

1 **Q. Are the pension expense numbers being used for the rate determination derived**  
2 **from the actuarial valuation for funding purposes or from a separate report for**  
3 **accounting purposes? If the latter, please provide that report.**  
4

5 A. The pension expense numbers being used for the rate determination are not derived from  
6 the actuarial valuation for funding purposes.  
7

8 The 2008 Pension Valuation is an actuarial report that determines the financial position  
9 of the pension plan from a funding perspective on a going-concern and solvency basis.  
10

11 Please refer to the response to Request for Information CA-NP-317 (1<sup>st</sup> Revision) for  
12 information regarding Newfoundland Power's forecast 2010 pension expense.
