

1 **Q. What checks will be performed to ensure compliance with inspection and planned**  
2 **maintenance standards set out in Section 19 of the Administration Practices?**

3  
4 A. A detailed explanation in relation to operations under Section 19 of the Administration  
5 Practices is provided in response to PUB-NP-49.

6  
7 Coordination of Support Structure work between Newfoundland Power and Bell Aliant  
8 will necessarily involve consideration by the Joint Use Working Committee of the  
9 ongoing performance of inspection and planned maintenance by both pole owners,  
10 including detailed consideration of the inspection data collected by each, and the  
11 maintenance activities of each, both planned and completed.

12  
13 For additional information on the functioning of the Joint Use Working Committee,  
14 please see the response to Request for Information PUB-NP-53.
