

1 **Q. Does the lease for the two high volume printers include a provision for**  
2 **maintenance?**

3  
4 A. Yes, a provision for maintenance is expected to be included in the lease of the two high  
5 volume printers.

6  
7 The cost of maintenance services is expected to be based on a negotiated cost per copy for  
8 the life of the lease contract, and is in addition to the estimated annual lease cost of \$40,000.

9 This is typical in lease arrangements for this type of equipment. The costs of both the lease  
10 and related maintenance services are ongoing operating costs for the Company.
