

1 **Q. Does the lease for the high volume copier include a provision for maintenance?**

2
3 A. Yes, a provision for maintenance is expected to be included in the lease of the high volume
4 copier.

5
6 The cost of maintenance services is expected to be based on a negotiated cost per copy for
7 the life of the lease contract, and is in addition to the estimated annual lease cost of \$40,000.
8 This is typical in lease arrangements for this type of equipment. The costs of both the lease
9 and related maintenance services are ongoing operating costs for the Company.
