5 A. Newfoundland Power did not directly supply Dr. Vander Weide with a list of deferral
6 accounts. However, Dr. Vander Weide is aware from his reading of the annual report,
7 the Company's Evidence, and recent credit reports of DBRS and Moody's, that
8 Newfoundland Power has cost recovery mechanisms for the recovery of prudently-
9 incurred purchased power costs, future employee benefit costs, and severe weather costs.
