

1 Q. Re: 2013 Capital Plan, page 22 Install Backup System for Raw Water Supply
2 and Clarifier:
3 Has there been an update to the AON Reed Stenhouse Inc. report of 2007?
4
5

6 A. A risk assessment workshop, led by a senior member of AON Reed Stenhouse, was
7 held at the Holyrood Thermal Generating Station in 2007. AON Reed Stenhouse did
8 not deliver a report to Hydro. The work is required to ensure Holyrood's safe and
9 reliable operation is considered in total, and priorities are established and
10 reassessed from time to time.
