

1 Q. Re: 2013 Capital Projects 500,000 and Over: p. C-60 Replace Vehicles and Aerial
2 Devices:
3 Has Hydro ever piloted a study of a portion of its fleet to determine whether its
4 replacement criteria for vehicle age and kms may be extended?

5

6

7 A. Hydro has not formally piloted a study on a portion of the fleet to determine
8 whether its replacement criteria can be extended. However, as a member of the
9 Atlantic Utility Fleet Technical Committee, Hydro has determined it has
10 replacement criteria which is consistent with other Atlantic Canadian Utilities.
