

1 Q. Re: Automate Generator Deluge Systems, Unit 5 and 6, Bay d’Espoir, Tab 11:
2 Does Hydro complete drills and/or employee training as it relates to the manual
3 system currently in place?
4
5

6 A. Operations personnel review on a monthly basis the instructions or set procedures
7 required to be followed in the event of a generator fire. In addition, all operations
8 personnel have refresher courses on the use and operation of their Personal
9 Protective Equipment, the Self-contained Breathing Apparatus packs and in
10 firefighting training on site in Bay d’Espoir. As well, a Plant Emergency
11 Organization team is being developed; and plans, including performing drills, are
12 expected to be completed by year end.
