

1 Q. With reference to the Project **C-8, Upgrade Governor Controls Units 1 and 2 –**
2 **Holyrood**, has Hydro made any inquiries to determine what repair or exchange of
3 components (and other support) for the Mark V may be available from sources
4 other than GE?

5

6

7 A. Any cards and components provided by aftermarket suppliers would have to meet
8 the reliability standards of the original equipment. Hydro has no experience with
9 these aftermarket suppliers. Hydro has not made contact with them to determine
10 their capabilities.
