Page 19, line 6: IN-NLH-185

Page 37, lines 15-17: It should be noted that, as we shall see below, customers served under the Labrador Isolated rates are also indirectly impacted by the LIS rate increase, in that it creates a corresponding reduction in the provincial NSP subsidy.

Page 61, line 13: This ~~review~~ report is attached as Appendix B.

Page 69, lines 11-13: As more than ~~six~~ eight years have passed since the 2007 Energy Plan was released, there is no apparent reason why the Board should not again pick up the process envisioned earlier for the implementation of IRP.
