

1 Q. (Re: Pre-filed Testimony of P. Bowman and H. Najmidinov, page 7, lines 5 to
2 6). It is stated *"In the case of each of the IIC Group members, electricity costs*
3 *make up a substantial portion of the operating costs of the customers 'operation"*.
4 What percentage of each Industrial Customer's incremental production cost is
5 attributable to electricity costs?

6 A. InterGroup does not have access to the requested information.

7 The referenced excerpt is contained in Section 2 of the pre-filed testimony, which
8 describes the InterGroup assignment and InterGroup's understanding of the
9 priorities and situation facing its clients and industrial customers generally. It is
10 intended to assist the reader in understanding the priorities that InterGroup has
11 placed on analyzing various topics, and the expected degree of concern from
12 industrials on each of these issues. InterGroup is not asserting the concept as a
13 statement of factual conclusion, but rather to clarify InterGroup's working
14 understanding at the outset of the exercise.

15 The statement was not used directly in supporting any of the recommendations in
16 the pre-filed testimony.
