

1 Q. (Regulated Activities Evidence page 2.36, lines 16 to 17)

2 When is Praxair expected to start taking power and how much power is Praxair
3 expected to consume in 2013?

4

5

6 A. Praxair has started taking power but was delayed from their expected start date of
7 June 2013.

8

9 As of April 12, 2013, the date of Hydro's 2013 Test Year load forecast, Praxair was
10 forecast to consume 4.3 GWh in the period from June through December of 2013.
