

1 Q. (GRA, Volume II, Exhibit 3 – Provincial Electrical Systems, page 3)  
2 It is stated that new facilities necessary to provide construction power for Muskrat  
3 Falls are fully contributed and assigned as common due to system capacity benefits.  
4 Please provide details of all projects and costs associated with adding Muskrat Falls  
5 as a new customer on the Labrador Interconnected System.  
6  
7

8 A. In the 2013 Test Year, \$6.1 million was included for budget purposes as fully  
9 contributed assets. In Hydro's Amended Application, the 2015 Test Year has no  
10 costs associated with adding Muskrat Falls as a new customer on the Labrador  
11 Interconnected System. These assets have been excluded to ensure no impact on  
12 the 2015 Cost of Service.
