5

6 A. The response to CA-NLH-012 from the 2013 RSP proceeding indicated that it may be
7 considered that there was a degree of cross-subsidization to the benefit of IC
8 totaling \$37.6 million as a result of Government Orders-in-Council. Hydro is not
9 aware of any obligations or conditions placed upon the IC in return for this cross-
10 subsidization conveyed through the Government Orders-in-Council.
